

## **DO YOU REMEMBER YOUR PIN NUMBER?**

As a reminder our cafeterias utilize an Electronic Point Of Sale Systems in ALL of our North Olmsted Schools – from the smallest Primary School to the High School. **The system requires each student to enter their PIN number as they go through the lunch line.**

The PIN number each student was assigned will follow them throughout their career at North Olmsted Schools. On a rare occasion this number may be changed by a digit if the student enters another school where an existing student has the same number (example: A student who graduates from Chestnut to the Middle School or Middle School to High School). **Helpful Hint:** 90% of the PIN's are the last four digits of the student's ID number. (The only PINs that were not taken from those last four digits were those that duplicated a younger student's number. In those cases we gave that PIN to the young student and assigned a different number to the older student.

As we open school in August, we will have lists of the PINs in each of the buildings to help students. We will also have the Master List in the Food Service Office (779-3539).

The quicker the students re-acquaint themselves with their number the smoother and quicker the serving lines will run. All accounts from last year that had balances (either positive or negative) will also follow the student. You may begin adding money to your child's account as early as Day One.

One final note: North Olmsted Schools now has an on-line payment program. See the included sheet regarding "PayForIt".
